### DETAILED ACTION

The amendment filed on 07-07-03 has been received and entered in the case.

#### *Drawings*

The proposed drawing filed on 07-07-03 is objected to because in figure 1, the blank box (9) does not have a functional label. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

#### *Claim Objections*

Claims 12 and 18 are objected to because of the following informalities: the recitation “a third phase **can** change” is not a positive recitation. It should be changed to “a third phase changes”. Appropriate correction is required.

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11, 12, 17 and 18 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification fails to describe the **blank box** (9) of figure 1 of the present application as to how it can “affect adaptive control of a plurality of phases of said plurality of stages by indicating that corresponding edges of the plurality of phases have terminated” as recited in claims 11 and 17. The blank box (9) does not contain any component/circuit proving that the above performance can be done. Moreover, the specification does not disclose what are inside the blank box (9).

Art Unit: 2816

Claims 12 and 18 are also rejected under 35 U.S.C. 112, first paragraph because of the technical deficiencies of claims 11 and 17.
